Dear Roger,

I want to send a quick note of appreciation for the prompt, courteous and thorough service that your company provided after we learned that we had a leak in our roof. It was a relief to have someone that came to our church in the timeframe that was promised and did not just tell us what was wrong, but had the tools and materials necessary to complete the repairs while he was there.

The storms that we had since he did his work confirmed that the leak was fixed and we have been able to replace the ceiling panels in the lobby area of our church.

Thanks for quickly and professionally taking care of our roof problem! Customer service is becoming a rare commodity in so many industries, but I would not hesitate to recommend your company to others when they are in need of excellent roofing services for their low or steep sloped roofs.

With warm and dry regards,

A handwritten signature in blue ink that reads "John R. Geary".
